

**Conditions for admission to the bachelor's degree study programme  
Animal Protection and Welfare in English language  
at the Faculty of Veterinary Hygiene and Ecology of the University  
of Veterinary Sciences Brno for the academic year 2024/2025**

According to § 49 of the Act no. 111/1998 Coll., on Higher Education Institutions and on the Amendment and Supplement to Some Other Acts (the Higher Education Act), the Faculty of Veterinary Hygiene and Ecology (FVHE) of the University of Veterinary Sciences Brno (UVS Brno) publishes the conditions for the admission to studies in the bachelor's degree study programme Animal Protection and Welfare for the academic year 2024/2025.

Conditions for admission to the studies are:

- proper completion of full secondary education according to § 48 sect. 1 of the Higher Education Act, which the applicant must submit in the form of an officially verified document issued by the school departments of the regional authorities to the study department of the faculty the latest by the date April 30, 2024. If capacity of the study programme is not fulfilled within the first round, the dean may announce another round for the submission of applications for the study. Deadline for the second round of the application submission is August 16, 2024.
- the submission of the application to study and related appendices (in electronic form) the latest by the date April 30, 2024. In case the capacity of the study program is not fulfilled by the first round, the dean may announce another round for the submission of applications for study. Deadline for the second round of application submission is August 16, 2024.
- confirmation of the applicant's medical fitness to study in accordance with Appendix 1 and the findings of a doctor. The applicant shall submit Appendix 1 to the health service provider prior to the medical fitness assessment. The applicant's medical fitness to study shall be assessed and a medical certificate issued by the registering provider in the field of general practitioner medicine or in the field of general practitioner medicine for children and adolescents, or any provider in those fields. An applicant shall submit a medical certificate on the form (Appendix 2) at the same time as the application.

The FVHE UVS Brno is setting, according to § 49 sect. 1 of the Higher Education Act, these further conditions for the admission to studies:

- the result from secondary school, which is evaluated using points according to the secondary education school report for the 1st, 2nd, 3rd (final report) and 4th year of study (semi-annual report), for multi-year high schools, the result for the last 4 is evaluated similarly years of study. The results from secondary school must be documented by scanned copies of the report card in the e-application.
- completing an online or face-to-face interview with the Vice-Dean for Education and the Study Officer on the content of the study programme,
- the admission procedure is carried out in English language.

UNIVERSITY OF VETERINARY SCIENCES BRNO  
FACULTY OF VETERINARY HYGIENE AND ECOLOGY

For the academic year 2024/2025, the highest possible number of accepted students to the first year of study is determined at 24.

The applicant can not be admitted to the study programme of the FVHE if he/she is already studying in this study programme. Admission to studies shall be decided on the basis of the order of the total number of points obtained within the admission procedure.

If the number of applicants who fulfilled conditions laid down for admission to studies will be less than 5, the study programme will not be opened.

Verification of fulfilment of conditions for admission will be carried out for the first round of admissions on June 3 2024 and for a possible second round on September 2 2024. The decision will be issued within 30 days from the verification of fulfilment of conditions for admission. The applicant may inspect the file at the FVHE Study Office after notification of the decision.

In Brno, November 10, 2023

Assoc. Prof. MVDr. Šárka Bursová, Ph.D.  
The Dean of FVHE UVS Brno

**Appendix 1:** Requirements for medical fitness to study the bachelor's degree study programme Animal Protection and Welfare
